

WHAT WE OFFER

Services

General Hedging:

Individuals who have a general understanding of the markets tools and use to hedge their vested interest via futures and/or options.

Market Solutions Hedge Program:

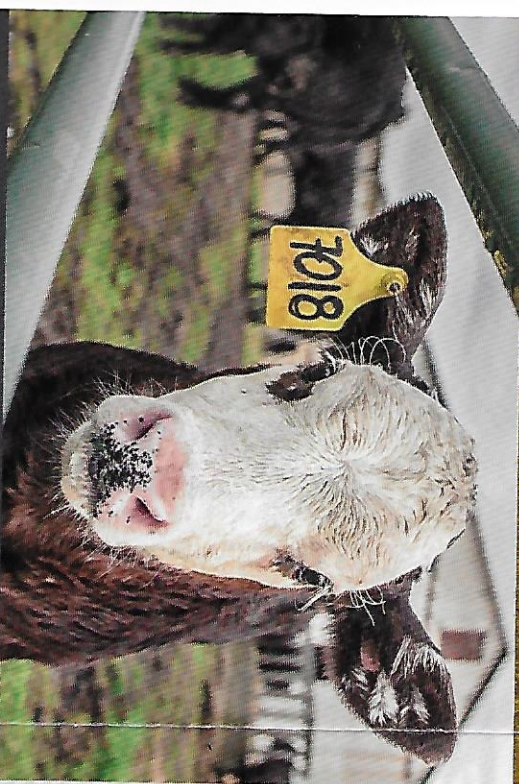

Producers who want individualized attention, partnering with a consultant for one on one marketing of their products (corn, soybeans, wheat).

Speculators:

Individuals who have vested interest in trading commodity futures and options for capital gains.

Technology

Midwest Market Solutions and R.J. O'Brien's research group gives us the leading edge in a long term fundamentals of cash and futures market.

WHO ARE WE?

Midwest Market Solutions is a full service commodity brokerage firm founded by Brian Hoops. Our firm beliefs are built around the needs and wants of our clients; cattle feeders, lean hog producers, grain and oil seed producers, merchancants, lenders, and speculators.

HOW IS A MARKET HEDGE PROGRAM BENEFICIAL?

When formulating our plan we put ourselves in the producers shoes. We have brokers that are also producers and understand the break-evens, risks, farm programs, profits and loss.

Our marketing plan is developed with the consensus of answering one simple question, "WHY"

WHY should I buy puts or calls at this price level?

WHY should I be making forward cash sales at this level?

WHY should I cover feed needs via cash purchases?

We deal mainly, but not limited to options. Producers and lenders want to know what's their risk.

We service our customers with a weekly newsletter that gives producers a heads up prior to a target recommendation. Once hit, rest assured their market consultant will call them so they can act.

Market Hedge Program Includes:

- Weekly newsletter with market recommendations in corn, beans and wheat.
- Daily market updates along with text messages.
- 24 hour 7 days a week access to a market consultant.
- Snap shot quotes along with market recommendations.
- One on one market consultation.
- Reduced commission rates and the most competitive plan fees.
